

Bank Branches & ATM's Solutions

PACOM VIGIL CORE's access control solutions are perfect for banks along with alarm, video and security monitoring for Automated Teller Machines (ATMs).

Solutions can be personalized, including remote access control, alarms, theft prevention, video and security monitoring, and more.

VIGIL CORE is an intelligent, cloud-based, centrally controlled management platform. This solution can be deployed in the cloud, on-premises or hybrid environment providing a flexible and future proofed system for the user. VIGIL CORE has been designed primarily for monitoring data such as access control, alarms, etc. from one to thousands of sites for any organization.

Feel secure anywhere, anytime with the S1000 Intelligent Control Panel. Manage Access Control, Alarms, and Building Management functions remotely and securely from one panel. The compact, low-power, multifunction S1000 security control panel is located at each Bank or ATM site.

CONFIGURABLE SOLUTION | KEYLESS ENTRY | BRANCH AND ATM MONITORING | FAULT DETECTION | VIDEO INTEGRATION
